GSA Information Sheet

The equipment and purchases must be in accordance with the 1122 "Counter Drug" Program. General information on the program is as follows:

Section 1122 of the Fiscal Year 1994 National Defense Authorization Act established the authority for state and local governments to purchase law enforcement equipment through federal procurement channels, provided that the equipment is used in the performance of counterdrug activities. The authority for the "1122 Program" resides with the Department of Defense. The U.S. Army, as the Executive Agent of the program, has formed a steering committee consisting of representatives from the General Services Administration (GSA), the Defense Logistics Agency (DLA) and the Department of Justice (DOJ). Under the provisions of the statute, GSA is responsible for the development of a catalog, which not only explains the 1122 Program, but also delineates those products which may be procured under the program.

Each state participating in the 1122 Program designates a State Point of contact (SPOC) to administer the State's activities under the program, by validating the Counter Drug mission of each procurement request, and ensuring the availability of funds. To date, forty-five (45) states have elected to participate in the 1122 Program.

With the approval of the Executive Agent, GSA has approved ten (10) Federal Supply Schedules and the purchase of motor vehicles under the program.

The 1122 Program is not mandatory for both the State Point of Contacts (SPOCs) and the Schedule Contractors, i.e. the contractors have the option as to whether to accept or reject an order from the SPOC.

The Point of Contact for the State of Georgia is:

Name: [Mr. Don Sherrod](#)

Tel: (404) 624-7040

GA Emergency Mgt. Agency,

935 East Confederate Ave, S.E. Building 10,

Atlanta, GA 30316.

Mr. Sherrod is responsible for receiving all orders from state and local law enforcement entities, and for determining that the items will be used for counterdrug activities. For items under Federal Supply Schedules, the SPOCs will send all orders directly to the Schedule contractor; payment will also be made directly to the Schedule contractor. Orders for the purchase of vehicles (except for the Command Centers on 23 V, which can either be placed directly with the contractor or forwarded to GSA) must be forwarded by the SPOC through GSA.

1122 Pilot Program—What You Can Get From the General Services Administration

Background Information

Section 1122 of the fiscal year 1994 National Defense Authorization Act established the authority for State and local governments to purchase law enforcement equipment through Federal procurement channels, provided that the equipment is used in the performance of ***counter-drug activities***. The "1122 Program" affords State and local governments the opportunity to maximize their use of taxpayer dollars, by taking advantage of the purchasing power of the Federal Government to receive discounts commensurate with large volume purchases.

The statute defines the terms "State" and "units of local government" as follows:

The term 'State' includes the District of Columbia, the Commonwealth of Puerto Rico, the Commonwealth of the Northern Mariana Islands, and any territory or possession of the United States.

The term 'unit of local government' means any city, county, township, town, borough, parish, village, or other general purpose political subdivision of a State; an Indian tribe which performs law enforcement functions as determined by the Secretary of the Interior; or any agency of the District of Columbia government or the United States Government performing law enforcement functions in and for the District of Columbia or the Trust Territory of the Pacific Islands.

The authority for the 1122 Program resides with the Department of Defense. The U.S. Army, as the Executive Agent of the program, formed a steering committee initially consisting of representatives from the Army, the General Services Administration (GSA), the Defense Logistics Agency (DLA), and the Department of Justice. Today, the Army, GSA, and DLA are actively involved in the program. One of GSA's responsibilities under the program is the development of a Catalog that delineates the items available under the 1122 Program.

Each State participating in the 1122 Program designates a State Point of Contact (SPOC) to administer the state's activities under the program, by validating the counter-drug mission of each procurement request, and ensuring the availability of funds.

Program Expansion—1122 Pilot Program

Section 885 of the Duncan Hunter National Defense Authorization Act for Fiscal Year 2009 amended 10 U.S.C. 381, to expand the procurement authority under the 1122 Program beyond counter-drug activities, to include equipment for ***homeland***

security and emergency response activities. The statute further specifies that any equipment to be used for homeland security activities must be included on the Authorized Equipment List published by the Department of Homeland Security (DHS).

As a result of the new legislation, a pilot program has been created to implement expansion of the program. The following six states have agreed to participate in the pilot program:

- **North Carolina.**
- **Georgia.**
- **Florida.**
- **Nevada.**
- **California.**
- **Arizona.**

For purposes of the pilot program, the six "pilot" states will use this document to determine those items that may be purchased under the 1122 Program for counter-drug, homeland security, or emergency response activities. For those items to be procured for homeland security activities, the SPOCs will ensure that the items are included on the DHS Authorized Equipment List.

GSA Schedule Items

The following pages identify the GSA Schedules authorized for use under the 1122 Pilot Program, the categories of items available under each Schedule, and the authorized application of the items; i.e., counter-drug, homeland security, or emergency response. As a result of Schedule mergers, many of the Schedule numbers and categories of items have changed since the last publication of the *1122 Program Equipment and Supplies Catalog*. In addition, a number of the merged Schedules now contain items *not authorized* for use under the 1122 Program. Schedules and items have also been added to facilitate the expanded application of the program. State and local government agencies are, therefore, advised to use this document to determine those categories of items that may be procured for use in the performance of their counter-drug, homeland security, or emergency response activities.

In order to assist all users of GSA Schedules, GSA has developed GSA eLibrary, a centralized, online source for the latest Schedule contract award information. In addition to Schedule listings, GSA eLibrary contains a powerful search engine that allows you to search by Keywords, Schedule Number, Contractor/Manufacturer Name, Contract Number, and Special Item Number (SIN), the latter of which is used to identify generic categories of items. GSA eLibrary is updated daily to provide the most current contract award information. GSA eLibrary also provides a direct link to *GSA Advantage!*®, GSA's online shopping service, where you may browse/search and view items available under the Schedule contracts. GSA eLibrary may be accessed via the Internet at www.gsa.gov/elibrary.

GSA also publishes a variety of publications on Schedule products. Copies of these publications may be obtained by contacting GSA's Centralized Mailing List Service (CMLS) on (817) 334-5215 or via the Internet at www.gsa.gov/cmls.

Each Schedule contractor publishes a *Schedule Pricelist* that contains pricing, terms, and conditions for the items awarded under the contract. Schedule pricelists may be obtained directly from GSA Schedule contractors. Points of contact for each Schedule contract are listed in GSA eLibrary.

As technology evolves, GSA continues to award contracts adding new technology to the GSA Schedules Program. New technology within the scope of the general categories of items authorized for use under the 1122 Program will be made available to States and units of local government. State Points of Contact (SPOCs) should contact the GSA point of contact listed in GSA eLibrary for each GSA Schedule, in order to ascertain the availability of new technology.

GSA Schedule Ordering Procedures

The State or unit of local government submits its request to the State Point of Contact (SPOC) in accordance with the procedures established by the State. The SPOC then validates the counter-drug, homeland security, or emergency response mission of each procurement request, and ensures the availability of funds. In the case of equipment used for homeland security, the SPOC verifies that such equipment is on the Authorized Equipment List published by the Department of Homeland Security. Upon verification that the requested items are available under the GSA Schedules authorized for use under the 1122 Program, the SPOC submits the order *directly* to the GSA Schedule contractor. The Schedule contractor then has the option as to whether to accept or reject a Schedule contract order from a SPOC, since the 1122 Program is ***voluntary*** for GSA Schedule contractors. Upon contractor acceptance of the Schedule contract order, the items are delivered directly to the State or unit of local government.

The following language should be included on all delivery orders placed by SPOCs against GSA Schedule contracts:

This order is placed pursuant to the 1122 Program, in support of counter-drug, homeland security, or emergency response activities, under the authority of _____, the State Point of Contact (SPOC) for the State of _____.

Should any problems arise relating to Schedule items ordered, the GSA Schedule contractor should be contacted for resolution.

GSA's Vehicle Program

At the present time, vehicles may only be purchased under the 1122 Program for counter-drug activities; i.e., vehicles may not be purchased for either homeland security or emergency response activities under the 1122 Program.

GSA Automotive purchases non-tactical vehicles for use by Federal agencies, including various branches of the military. The following are the **only** types of vehicles available for purchase under the 1122 Program:

- Law Enforcement Vehicles.
- Sedans.
- SUVs.
- Vans.
- Pick-ups.

GSA Vehicle Ordering Procedures

The State or unit of local government submits its request for vehicles (excluding Command Centers under Schedule 23 V) to the State Point of Contact (SPOC) in accordance with the procedures established by the State. The SPOC validates the **counter-drug mission** of each procurement request and ensures the availability of funds. With the exception of Command Centers available under Schedule 23 V, all orders for vehicle purchases under the 1122 Program **must** be placed by the SPOC, utilizing AutoChoice, GSA's online vehicle ordering tool at www.gsa.gov/autochoice. SPOCs are advised that vehicle purchases through AutoChoice do not include Additional Requirements (AREQs); i.e., after-market equipment.

For more information regarding GSA's Vehicle Program, or for assistance in identifying requirements, SPOCs should contact GSA Automotive on (703) 605-CARS. Problems relating to vehicles ordered through AutoChoice should be directed to GSA for resolution.

Schedule 56 Building and Building Materials/Industrial Services and Supplies

NOTE: The following items under Schedule 56 may be procured for counter-drug, homeland security, or emergency response activities.

<u>SIN</u>	<u>Description</u>
	<i>Power Distribution Equipment, Generators, and Batteries</i>
383-2	Portable, Standby, Backup, or Prime Generators. Includes Generators Powered by Electricity, Gas, or Diesel, Rotary Motor Generators, Trailer Mounted Units, Enclosed Mobile Power Generation Standby Units, and Load Banks and Generator Transfer Switches. Includes Options, Accessories, and Parts.
383-5	Batteries and Battery Chargers. Includes Rechargeable Batteries (Carbon Zinc, Alkaline Manganese Dioxide, Mercuric Oxide), Non-rechargeable Batteries, Dry Cell Batteries, Stationary Batteries, Storage Batteries, Motive Batteries, Vehicle Batteries, Automotive and Industrial Truck Battery Chargers, and Stationary Battery Chargers. Includes Accessories and Parts.
383-10	Portable Light Towers. Includes Generator-Sets, Gen-Sets and Batteries, Observation Towers, and Communication Towers. Includes Accessories and Parts.
412-3	Surge Protection/Suppression. Includes Sneak Current Protector, Telecommunications Surge Protection, Voltage Sensitive Devices, Wall Outlet Surge Protectors, and Wall Outlet Surge Protectors with EMI/RFI Filtering. Includes Accessories and Parts.
412-8	Hard Wired Surge Protection and EMI/RFI Filtration Devices. For use in power distribution systems of 120 volt single phase and 208 or 380 volt phase power distribution.
412-14	Uninterruptible Power Supplies. Includes AC and DC Regulated Power Supplies, Line Conditioners, Inverters, AC/DC and DC/DC Converters and UPS, and Frequency Converters. Includes Accessories and Parts.
412-15	Power Distribution Units.
412-17	Switchgear, Panelboards, Switchboards, Load Centers, and Metering. Includes Electrical Lockout Devices. Includes Options, Accessories, and Parts.
412-19	Transformers.

Schedule 56 Building and Building Materials/Industrial Services and Supplies (continued)

<u>SIN</u>	<u>Description</u>
	<i>Power Distribution Equipment, Generators, and Batteries</i> (continued)
412-21	Electrical, Voltage, and Generator Controls, Electric Motors, and Motor Controllers/Motor Control Centers. Includes Miscellaneous Wiring, Lay Flat Extensions, Cable and Conduit Assemblies, and Breakers and Extension Kits. Includes Options, Accessories, and Parts. <i>Excludes</i> Automotive Motors.
412-50	Ancillary Services Related to Power Distribution Equipment. <i>Must be ordered in conjunction with equipment.</i> Includes Installation (Design through Startup), Maintenance, and Training. <i>Excludes</i> Construction and Architect-Engineer Services (A/E) as defined in Federal Acquisition Regulation (FAR) 2.101 , Personal Services, and Stand-alone Services Applicable to the Service Contract Act.
	<i>Solar Energy Systems, Energy Saving Lighting Products, and Specialty Lighting</i>
206-12	Outdoor Lighting, Airport Lighting, and Related Accessories. Includes Approach Strobes; Runway and Taxiway Lights; Sign Lighting; Rugged, All-Weather Outdoor Facility Lighting; and Permanent or Portable Athletic Field Lighting. Includes Options, Accessories, and Parts.
	<i>Warehouse Equipment and Supplies</i>
357-11C	Warehouse Equipment and Supplies. Includes Storage Systems, Storage Racks, Conveyors and Conveyor Systems, Conveyor Belts, Slings, Hooks, Rope, Chain, and Webbing. Includes Material Handling Options and Accessories such as Strapping, Shrink Wrap, Sealer, Sealing Iron, Load Binder, Cord, and Twine.
	<i>Air and Water Purification Equipment</i>
641-2	Water Filtration Systems. Includes units that filter out harmful bacteria and parasites using replaceable filter media; units to prepare water for consumption by persons without access to safe water supplies; and storage units for treated/potable water. Includes Options and Accessories.

Schedule 58 I Professional Audio/Video, Telemetry/Tracking, Recording/Reproducing, and Signal Data Solutions

NOTE: The following items under Schedule 58 I may be procured for counter-drug, homeland security, or emergency response activities.

<u>SIN</u>	<u>Description</u>
58-1	<p>Recording and Reproducing Video and Audio Equipment, Accessories, Repair Parts and Spare Parts, as noted below—</p> <p>Video and Audio Recording and Reproducing Systems. Includes complete systems as well as separate components. Includes recorders and duplicators for both analog and digital media, including cassettes, cartridges, and video discs. May include special effects generators, including time and date stamping, picture in picture, closed captioning, text addition, character and symbol insertion and manipulation, and audio voice over equipment. Also includes amplifiers, mixers, switchers, synchronizing components, and editing equipment.</p> <p>Mini Studio Systems and Components. Includes training room and instructional systems, control room and studio control modules, and multiple microphone and video stations.</p> <p>Video projection components. Includes digital projectors, video walls, rear projection display screens, LED walls, LCD projectors, and control modules for controlling video projection.</p>
58-2	<p>Monitors and Monitors/Receivers, Accessories, Repair Parts and Spare Parts. Includes Color and Monochrome Monitors with Picture Tubes, LED, LCD, or Plasma Screens; Monitors that operate on Alternating Current (AC), Battery, or both; and Flat Panel Display Monitors.</p>
58-3	<p>Color and Monochrome Television Cameras, Accessories, Repair Parts and Spare Parts. Includes Professional, Industrial, Broadcast, Fixed, Portable, Analog, Digital, and Separate Head Cameras. <i>Excludes Household Cameras.</i></p>
58-4	<p>Audio Equipment, Accessories, Repair Parts and Spare Parts. Includes both Professional Sound Systems and Components.</p> <p>Audio Equipment Components. Includes Amplifiers, Speakers, Audio Consoles, Switchers, Cassette Recorders and Players, Cartridge Recorders and Players, Compact Disc Recorders and Players, and Reel-To-Reel Equipment.</p> <p>Recorders/Reproducers. Includes Logging Recorders and Players, and Single or</p>

Multi-Channel Recorders and Players.
Excludes Home Type Phonographs or Stereo Systems.

Schedule 58 I Professional Audio/Video, Telemetry/Tracking, Recording/Reproducing, and Signal Data Solutions (continued)

<u>SIN</u>	<u>Description</u>
58-6	Telecommunications Equipment, Accessories, Repair Parts and Spare Parts. Includes Airborne and Non-Airborne Telemetry and Tracking Equipment, Radar Equipment (except Airborne), Underwater Sound Equipment, Visible and Invisible Light Equipment, Laser Equipment, Recorder/Reproducer Sets—Signal Data (Multi-Application), Fish and Wildlife Monitoring Equipment, and Fiber Optic and Digital Telecommunications Equipment.
58-7	Ancillary Services for Equipment. Includes Equipment Set-Up, Assembly, Installation, Integration, and Training.

***Note:** *Closed Circuit and Other Surveillance Equipment, formerly under Schedule 58 I, SIN 58-5, are now located under Schedule 84, SIN 426-4S, Surveillance Systems.*

Schedule 66 Scientific Equipment and Services

NOTE: The following items under Schedule 66 may be procured for counter-drug, homeland security, or emergency response activities.

<u>SIN</u>	<u>Description</u>
	<i>Geophysical and Environmental Analysis Equipment</i>
66-14	Global Positioning Systems (GPS). Includes directly related Options and Accessories.
	<i>Laboratory Instruments, Furnishings, and LIMS</i>
603-13	Borescopes and Fiberscopes. Includes Rigid Borescopes and Flexible Fiberscopes for Non-Medical Applications.
615-4	Gas Chromatograph (GC) and Chromatograph/Mass Spectrometer (GC-MS) Systems. Includes Automatic Samplers, Detectors, and Columns. Includes Accessories, Options and Integrators. <i>Excludes</i> Gas Analyzers tuned for the detection and identification of specific substances.
615-9	Liquid Chromatographer (LC) and Liquid Chromatographer/ Mass Spectrometer (LC-MS) Systems. Includes Automatic Samplers, Column Monitors and Detectors, Columns and Guard Columns, and Specific LC and SFE/SFC Pumps. Includes Accessories, Options and Integrators.
	<i>Test and Measurement Equipment, Unmanned Scientific Vehicles</i>
627-50	Unmanned Aerial Vehicles (UAV) Systems, Airborne Segment, Ground Control Segment, and Critical Components. Includes Air Vehicles, Ground Control Stations, Payload, Data Link, and Launch and Recovery Subsystems (if applicable). Includes Ancillary Items needed to operate the system. Includes Power Plant, Mission Payload, Guidance and Control Equipment, Data Links Receivers/Transmitters, Manned Control Station, Launchers, Autopilots, Navigation/Guidance Subsystems, Automatic Landing Subsystems, and Similar Equipment Items.
627-55	Unmanned Submersible Vehicle Systems and Control Segments. Includes Submersible Vehicles, Control Stations, Payload, Data Link, Launch and Recovery Subsystems (if applicable).
