Administrative Services

Customer Focused, Performance Driven

Nathan Deal
Governor

Sid Johnson
Commissioner

The Georgia Department of Administrative Services, State Purchasing Division, has established a Statewide Contract for **Auto Rental- Instate** with **Enterprise Rent-a-Car**.

This is a **MANDATORY CONTRACT** for all State of Georgia governmental entities subject to the State Purchasing Act. The statewide contract is also available on a convenience basis to other Governmental Entities such as state authorities, local government, municipalities, cities, townships, counties and other political subdivisions of the State of Georgia.

The purpose of this contract is to provide car rental service for government employees needing rental cars in the performance of official business. This contract provides for instate rentals and operation of the Capitol Hill Motor Pool and is only for rentals originating in the State of Georgia. This partnership will provide substantial savings and convenience for government employees needing a rental car for official business. In addition to providing more cost-effective and convenient instate car rentals; this contract also significantly changes the operation of the state's motor pool. Under this agreement what has historically been known as the "DOAS Interagency Motor Pool" will be operated by Enterprise Rent-a-Car at the same location. The changes to the motor pool, along with the new car rental agreement, are key components in the plan to create a statewide motor pool.

Key benefits of the contract include:

- 13.8 % average savings over historical cost (based on cost analysis of first two years of contract)
- Free pick up service for instate rental
- Free scheduled pick up service for Capitol Hill area
- Wider variety of vehicles
- Real-time reservation confirmation
- Ability to customize online reservations to an agency's specific travel requirements
- Roadside assistance within two hours of reporting a problem
- Over 200 Georgia locations plus a centralized Capitol Hill location
