Ordering Instructions

To utilize the contract, contact CTS (See Contact Information Above) to set up an needs assessment to get a recommended configuration for your agency along with a quote. All agencies have difference requirements and a customized quotation will be provided. The State Contract provides pricing from Dell for hardware, from Jotto Destk for vehicle consoles and computer mounts, and from Interceptor Public Safety for vehicle installation. With your quote from CTS for software and services, the Authorized User or Agency will be provided a set of hardware specifications and quantities. With your permission, CTS will submit those specifications to Dell under the State Contract under which we have negotiated aggressive pricing for the Hardware component. They will present you with a complete quote. Alternately, you may take the recommended hardware configurations and numbers and seek a quote directly from Dell or the hardware manufacturer of your choice. CTS has Certified specific configurations of hardware to work with their software and specific services from Dell for Hardware installation. Your actual order will be placed based on an agreed to Statement of Work including specific progress and payment milestones.
