

February 2012

The Statewide Roll Out Continues

Ten more agencies went live on Team Georgia Marketplace™ in December 2011, bringing the user base to 34 state agencies. This winter, the Governor's Office of Planning and Budget and its attached agencies will go live, bringing the agency total to up 45. Roll out will continue in FY 2013 and 2014 with the onboarding of the Technical College System of Georgia, which includes 25 colleges and the central office. Once the technical colleges are live, this will signal the completion of Georgia's statewide implementation of Team Georgia Marketplace™ for state entities using PeopleSoft Financials through the State Accounting Office.

Here are some Team Georgia Marketplace™ metrics, as of December 31, 2011:

- Over 5700 agency users
- Over 800 local government Window Shoppers
- Over 26,000 registered bidders and suppliers
- Over 1.3 billion procurement spend processed for the first half of FY 2012

Congratulations to our state partners for their continued hard work in bringing the State of Georgia to the new century!
