

## New Look and Feel for the TGM's Virtual Catalog

On January 8, 2014, the Team Georgia Marketplace™ Virtual Catalog will have a new look and feel. Below are some of the new features you will see in the catalog:

- Easily accessible side navigation bar with slide-out menus;
- Top banner highlighting notification and action items, as well as quick access to your shopping cart;
- More organized menus based upon related task, making them easier to locate.

This new interface brings a more user-friendly, easy-to-navigate and most importantly convenient experience to the Virtual Catalog. In addition, users of the Virtual Catalog will be able to access the statewide contracts not only from their desktops and laptops, but also from their tablets.

Be on the lookout for communication regarding training and upcoming webinars to help you navigate the new Virtual Catalog!
