Frequently Asked Questions

1.) Who Must Use This Contract?

No State Entity must use this contract, this contract is a 'Convenience' statewide contract. It has been put in place to accommodate the needs of all Agencies, Colleges/Universities, local subs and municipalities. If there are any questions surrounding its use, please refer to the 'Order of Precedence' in the Georgia Procurement Manual.

2.) Who May Use this Contract?

Any State Entity, to include all Colleges and Universities, as well as state and local governments, and public libraries may utilize this contract. Non-Profit organizations may also utilize this contract if they meet the FEMA Disaster Policies 9521.2, 9521.3, 9524.6, and 9524.9.

3.) How do I obtain pricing?

A pricing grid is listed below to provide any using entity a method for approximating their cost on any specific order. Pricing may vary slightly due to the complexity and options available to the using entity.

4.) How Are Orders Placed From this Contract?

Contact the designated supplier contact listed below to initiate a response within 2 hours. Representatives will be mobilized and dispatch immediately to stabilize all affected records within 24-48 hours.

All orders are to be placed through any of the following supplier representatives:

**Vernon Duty
Belfor USA Group, Inc.
Telephone: 770-939-0128
Cell: 678-428-2215
Fax: 770-939-4571**

**Chris Powers
Blackmon Mooring of Atlanta, LLC.
Project Job Coordinator
Cell: (678) 314-7829 cell
(800) 433-2940 24/7 Emergency Response**

**Neeley Kolsch
POLYGON U S CORPORATION-Moisture Control Services
Phone: 1-800-686-8377
Fax: 1-770-368-8340**

5.) What To Do If Orders are Required Outside the Contract?

For all state entities, if Emergency Records Recovery and Facility Mitigation Services are needed that are not available from this contract due to the scope of work but are obtainable through another source, these services can be procured by way of the Emergency Purchase Clause outlined in the Georgia Procurement Manual. That is if the situation is in fact an emergency.

State Purchasing has granted the authority to state agencies, departments and institutions to purchase urgently needed items arising from unforeseen causes. An emergency procurement is handled outside of the normal competitive process because of the urgency of the circumstances. Therefore, SPD approval is not required in advance of the emergency purchase. It is always good business practice and considered to be in the best interest of the state to make any procurement as competitive as time permits. The APO must provide the SPD with written justification and a copy of the PO and all pertinent documentation relating to the purchase transaction.

6.) Is There Anything Unusual About Ordering From This Contract?

This is not an unusual or difficult contract to use, especially since it is a 'Convenience' Contract. However, any event, be it natural disaster or otherwise, where records have been compromised have a window of time where they can be salvaged. Any recovery efforts outside the 24-48 hour window will jeopardize your affected records. The sooner the contractor is on site, the better. The details about vendor contacts, scope of work, base pricing, payment terms, response and delivery are all contained in the contract package. Please get familiar with the contract structure and review the Grid Pricing to approximate any costs.

Any services that are required as a result of a natural disaster or critical event will most likely be a long process to complete. This is due to the nature of the service and the time required to stabilize, recover and restore any affected records and or documentation.

B. Additional Provisions Respecting Materials

1. The foregoing prices shall be applied to all materials on the schedules above which are utilized in the performance of the work, whether shipped to the site from the Contractor's Inventory, shipped directly to the site from the Contractor's sources, or purchased locally by the Contractor from either an affiliated or non-affiliated entity.
2. During the course of performance of the work, the Contractor may add additional materials to the schedule above at rates to be determined by the Contractor.

6`UW_a cb`Accf]b[`cZ5 hUbHE@@ Rate Schedule - Preferred

IV. Document Remediation

Specific freeze drying costs will be determined per job, based on the factors relevant to each job and pricing will fall in the range of \$40.00 - \$75.00 per cubic foot.

These factors include, but are not limited to:

- Nature of Damage
- Moisture Saturation
- Degree of Char/Soot Residue
- Mold/Mildew Infestation
- Smoke Odor
- Deodorization Requirements
- Contamination Factors Include Debris, Sewage, Silt, and/or Hazardous Materials

The above rates represent the charges for freeze-drying only. Labor, equipment, materials and other costs incurred in connection with document remediation will be billed in accordance with the appropriate schedules and provisions contained in this rate schedule.

V. Dehumidification, Stabilization and Conditioned Air

Specific costs for Dehumidification, Stabilization and Conditioned Air services will be determined per job, based on factors relevant to each job and pricing will fall in the ranges indicated below.

These factors include, but are not limited to:

- Nature of Damage
- Moisture Saturation
- Height of Buildings, Ceilings and Affected Space
- Length of Job and/or Time Constraints
- Other Contamination Factors
- Local Weather Conditions
- Other pertinent conditions or situations as they may apply

These and other factors can cause the cost to provide such services to vary widely. The standard practice is to extend pricing on a firm unit price basis when there are no extenuating circumstances. Under normal conditions, pricing will generally fall in the following ranges depending on the above referenced factors:

Normal Range

Dehumidification - \$1.90 to \$2.50 per square foot during a 10 to 20 day timeframe

Stabilization - \$0.35 to \$0.50 psf per week

Conditioned Air - \$0.35 to \$0.50 psf per week

The above rates represent the charges for dehumidification, stabilization and conditioned air and their related dehumidification services for the area specified in the service contract. Labor, equipment, materials and other costs incurred in connection with all other services will be billed in accordance with the schedules and provisions contained in this rate schedule. If no square footage figures or per square foot rates are present in the service contract, dehumidification, stabilization and conditioned air will be billed on a time and material basis in accordance with the schedules and provisions contained in this rate schedule. (The foregoing does not include electrical power or generators and fuel for generators)
