General Contract Information: Ordering Instructions:

Until such time as these contracts are fully enabled in Team Georgia Marketplace online catalogs or if you are unable to utilize the Window Shopper functionality of Team Georgia Marketplace, the following instructions will enable your use of these contracts:

Since the Team Georgia Marketplace allows for direct comparisons of pricing, until you have that functionality, you are encouraged to seek several quotes from awarded suppliers, though you are not mandated to do so.

Steps to place order

First, review the Award Schedule of Manufacturers and Product Lines. A product line is a general grouping of products. You may seek pricing from a given supplier for product lines they were awarded. For manufacturers or product lines not yet included in the contract, please send an e-mail to the Contracting Officer. He will expedite your request and will forward you qualified quotes for use through the contract on an ad hoc basis for products within scope of the contracts, but not yet included.

Second, review the ordering instructions for the supplier of choice and place your order referencing the contract number assigned to that supplier. There are five contract numbers.
