Special Terms and Conditions

General Specification Requirements

NOTE: REQUIREMENTS SPECIFIED HEREIN SHALL APPLY TO ALL AUTOMOBILES AND STATION WAGONS PURCHASED BY THE STATE OF GEORGIA. THIS SPECIFICATION IS NOT COMPLETE WITHOUT SPECIFIC REQUIREMENTS IN THE DETAIL SPECIFICATIONS. SPECIFICATION IN THESE AREAS VARY BY CAB & CHASSIS TYPE. REFER TO THE DETAILED SPECIFICATIONS SHEETS (reference the Mandatory Requirements Worksheet) FOR FURTHER INFORMATION. IN THE EVENT OF CONFLICT BETWEEN THESE SPECIFICATION AND THE DETAIL SPECIFICATIONS, THE DETAIL SPECIFICATION SHALL APPLY.

APPLICABLE DOCUMENTS: Reference to publications in the detail specifications shall apply to those issues in effect on the date of the invitation to bid, unless otherwise specified.

DESIGN: New models in current production, complete with all necessary operating components and accessories customarily furnished, together with such modifications as may be necessary to enable the vehicle to function reliably and efficiently in sustained operation. Design to permit accessibility for maintenance purposes with minimal disturbance of other components or assemblies. The term "heavy duty" as used to describe an item, shall be defined to mean in excess of the usual performance, quantity, quality or capacity that is normally supplied with the standard production item.

COMPONENTS, ASSEMBLIES AND ACCESSORIES: The vehicle shall have all of its components, assemblies and accessories installed and shall be delivered to the State meeting or exceeding all applicable requirements of the Environmental Protection Agency Regulations, Federal Motor Vehicle Safety Standards, Federal Motor Carrier Safety Regulations and Industry Specifications, Standards and Regulation that are in effect on the date of manufacture. NOTE: All Components, assemblies, and accessories shall be Factory Installed unless otherwise noted. All pick up trucks shall have Fleetside type cargo boxes with step type bumpers. Standard size pick up trucks shall have a minimum of forty-nine (49) inches width between cargo box wheel housings. Bumpers may be factory or locally installed. In the event bumpers are locally installed, they shall meet or exceed factory standards, particularly with regard to tongue weight and tow weight.

STANDARD EQUIPMENT: The vehicle shall include all components, assemblies and accessories as offered by the vehicle manufacturer and referred to as "standard equipment or features".

EMISSION CONTROLS: Trucks built after January 1, 2010 are required to comply with the federal EPA Diesel Emission standards for 2010 (applies to diesel powered trucks from 8,600 lbs GVWR and up).

INTERIOR & EXTERIOR SOUND LEVEL: Vehicles shall comply with Federal Interstate Noise Standards.

COOLING SYSTEMS: Liquid pressurized forced circulation type, consisting of the necessary components of such design and capacity to maintain the engine at optimum safe temperature under all operating conditions without any loss of coolant. Optimum engine temperatures shall be maintained with the vehicle loaded and continuously operating at all driveable altitudes and grades in ambient temperatures ranging from minus 30 to 120 degrees F. Thermostat controlled and suitable for operation with permanent type antifreeze solution. Easily accessible drain outlets shall be provided to allow complete cooling system drainage. Coolant recovery system to be furnished.

TOOLS: Jack and Lug Wrench, Factory Installed, for each vehicle.

EXHAUST SYSTEM: Manufacturer's heaviest duty system available for engine furnished. Corrosion resistant and securely fastened and routed to protect components from hazards. System shall comply with Federal Motor Vehicle Safety Regulations.

CONTROLS, INSTRUMENTS AND OPERATING MECHANISMS: Located for left hand drive. Complete and conveniently accessible to driver. Instruments and controls clearly identified as to function.

HEATER AND DEFROSTER: Hot water heating systems with fresh air intakes. Discharge outlets to floor and defroster louvers shall be provided. Systems shall be equipped with variable temperature control and multiple speed blowers.

EXTERIOR FINISHES: Standard production colors.

MATERIALS: New and of quality conforming to current engineering and manufacturing practice. No defects and suitable for the intended service.

SERVICE AND REPAIR: The State of Georgia shall expect the manufacturer to have adequate stocks of replacement parts available to service State vehicles and to make delivery within a reasonable time of all normal replacement parts to their dealers who may service State vehicles. The State further expects that warranty service and repairs as well as non

warranty service and repairs will be handled without prejudice by local dealerships throughout the United States.

RESPONSIBILITY FOR INSPECTION: Unless otherwise specified in the contract or purchase order, the supplier shall be responsible for the performance of all inspection and test requirements necessary to ensure compliance with requirements of this and the applicable detail specifications. This action does not preclude subsequent inspection and testing by the State of Georgia to further determine conformance with specification requirements for performance, quality standards of workmanship, material and construction techniques.

DELIVERY: Truck is to be delivered within 120 days of receipt of purchase order.

PRE-DELIVERY SERVICING AND ADJUSTMENT: The dealer shall not attach any dealer identification, advertising or similar material to the vehicle. Prior to acceptance by the State inspector, the dealer shall service and adjust each vehicle for operational use, to include as a minimum, the following:

- Focusing of Lights
- Tuning of Engine
- Adjustment of Accessories
- Checking of Electrical, Braking and Suspension Systems
- Charging of Battery
- Alignment of Front End
- Inflation of Tires
- Balancing of all Wheels, including the Spare
- Complete Servicing of Engine, Chassis and Operating Mechanisms with Recommended Grades of Lubricants or Fluids for the Ambient Air Temperature at the Point and Time of Delivery
- Servicing of Cooling System with Permanent Type Antifreeze and Summer Coolant for Minus 20 Degrees F. Protection
- Servicing of Windshield Washer Reservoir with Water and Appropriate Additives
- A Minimum of 1/4 Tank of Fuel.

DOCUMENTS: Each vehicle shall be delivered with complete certification of origin, tag application, warranty, owner's manual and any other necessary credentials.

Ordering Instructions

The Office of Fleet Management requires state entities and Authorities who willingly have vehicles enrolled in Maximo to get authorization before purchasing **Administrative Vehicles**. Municipalities follow their own purchasing guidelines, and abide by the Terms and Conditions of SWC.

Locate the contact line items(s) you wish to order.

Determine the appropriate contractor for item(s) to be ordered. Refer to Pricing/Item Schedule Column titled Lot Number, which identifies; Item Number and Vendor Identification Number

Multiply required quantity times the unit price to determine the total cost for each line item. Include option(s) as separate line items(s).

Prepare Purchase Order.

Send copies of the Purchase Order to the Office of Fleet Management for authorized signature approval. Office of Fleet Management will forward the Purchase Order(s) back to the agency after approval.

After receiving the approved copies of the Purchase Order from the Office of Fleet Management, the agency will then mail the vendor's copy via certified mail, return receipt requested.
